

FEDERAL PROCUREMENT DATA SYSTEM

FOREWARD

Public Law 93-400 requires that the Office of Management and Budget (OMB), Office of Federal Procurement Policy (OFPP), "...establish a system for collecting, developing, and disseminating the procurement data which takes into account the needs of the Congress, the executive branch, and the public sector. Under the guidance of OFPP, design of the Federal Procurement Data System (FPDS) was completed in early 1978 and data collection began October 1, 1978. The Federal Procurement Data Center provides a central point to respond to the requirements of the legislative, executive, and judicial branches of the Government as well as the private sector.

Beginning October 1, 2004 Global Computer Enterprises, Inc. became the owner and operator of the Federal Procurement Data System – Next Generation (FPDS-NG) for FY 2004 data and subsequent fiscal years. Historically the Federal Procurement Data Center produced reports that examined the various aspects and impacts of the Federal acquisition process. Now this information is available through the enhanced reporting capabilities of the FPDS-NG. This data can be used for geographical analysis, market analysis, and analysis of the impact of congressional and presidential initiatives in socio-economic areas such as small business. The data is also a reliable basis for measuring and assessing the impact of Federal acquisition policy and management improvement.

Special reports to meet specific data requirements are available through GCE's reporting system. Basic acquisition data will be published electronically each fiscal year providing the same types of data available in past years through the Federal Procurement Report. Reports will be available on GCE's Web Site <https://www.fpds.gov>. If you have questions please contact the GCE help desk on 703-390-5360 or e-mail fpdssupport@gce2000.com

FEDERAL PROCUREMENT DATA SYSTEM (FPDS)

HIGHLIGHTS

The first FPDS annual Federal Procurement Report (FPR) was published in 1979 and has been produced every year since. In FY 2003 a contract was awarded to Global Computer Enterprises, Inc. (GCE) to re-design the FPDS and to perform the operations & maintenance of the new system. This system is entitled the Federal Procurement Data System – Next Generation (FPDS-NG), and is owned and operated by GCE.

Because of the enhanced reporting capability available in the FPDS-NG, the FY 2003 FPR does not include all of the various versions of data views published in prior years. This is the last report that will be prepared by the Federal Procurement Data Center Staff.

GCE took over the collection and production of FPDS data beginning October 1, 2003 with the submission of FY 2004 FPDS data. The FPDS-NG contains the historical data from the GSA FPDS database from FY 1979 through FY 2003.

Even though we are not publishing the entire traditional FPR, the information can be obtained from GCE, via canned or special reports. These reports will be available on GCE's Web Site <https://www.fpds.gov>. If you have questions please contact the GCE help desk on 703-390-5360 or e-mail fpdssupport@gce2000.com.
